Why Choose Laundromats:

Laundry is a service activity. Earlier clothes were washed by hand, washermen in ponds, rivers and then dried and pressed. But now a day's hand wash is outdated, due to workload. Washing machines of high capacity are developed and steam pressing and calendering machines have also come up to make wrinkle-free and press automatically.

MARKET POTENTIAL

Developments taking in all spheres of human life have an effect on the cleanliness and decency of dress materials and other linen also. Lack of time and other factors has made people get their dress, furnishing and linen materials washed and ironed in dry cleaners.

A Professional Laundry service provider which includes the largest range of services for the Corporate, Universities/ Institutes and household. Established in June 2012, Twin & Wash Laundry Services aims to become one of the most Professional laundry companies with primary Motto of Convenient, environment-friendly and Innovative services with Competitive price.
